

CASE STUDY: Pops Rino

Pops Rino harvested his Rice crop earlier than the rest of the farmers in the area. His total rice harvest was 85 cavans from his 7,000 square meters rice land. Total yield increased by 30.7% from his usually poor harvest of 65 cavans. He sowed his seeds on October 12, 2013 and transplanted on October 30, 2013. Farmer Rino harvested his rice crop on January 24, 2014 or after only 84 days .

CASE STUDY: Elpidio Ferrer

Elpidio Ferrer applied fertilizer twice after transplanting. He also used Flower Inducer. According to him, his plants grew faster, bigger and had greener leaves. They suffered no disease. Chemical fertilizer use was reduced by 23% from 13 bags to 10 bags. His harvest increased by 25%. The usual is 88 - 90 cavans of palay per hectare to 120 cavans per hectare.

How To Use In Palay

STAGE	What to Do	What to Use	Spraying Interval	Rate
Land Preparation	Apply the vegetative fertilizer at the rate of (2ml fertilizer per 1 Liter water) direct to the soil before planting (basal application)	Vegetative fertilizer		2ml fertilizer: 1L water
0-58 days	After planting the seedlings, spray on the leaves at 12 days interval at the rate of (1ml fertilizer for every 1 Liter water)	Vegetative fertilizer	12 days	1ml fertilizer: 1L water
58 – 120 days	Spray on the leaves at 12 days interval at the rate of (1ml fertilizer for every 1 Liter water)	Flowering & Fruiting fertilizer	12 days	1ml fertilizer: 1L water

MERIDIAN NATURE-TEK

About Meridian Nature-Tek

Meridian Nature-Tek is a company focused on delivering practical green technology at optimum quality without the higher cost.

About Agribooster

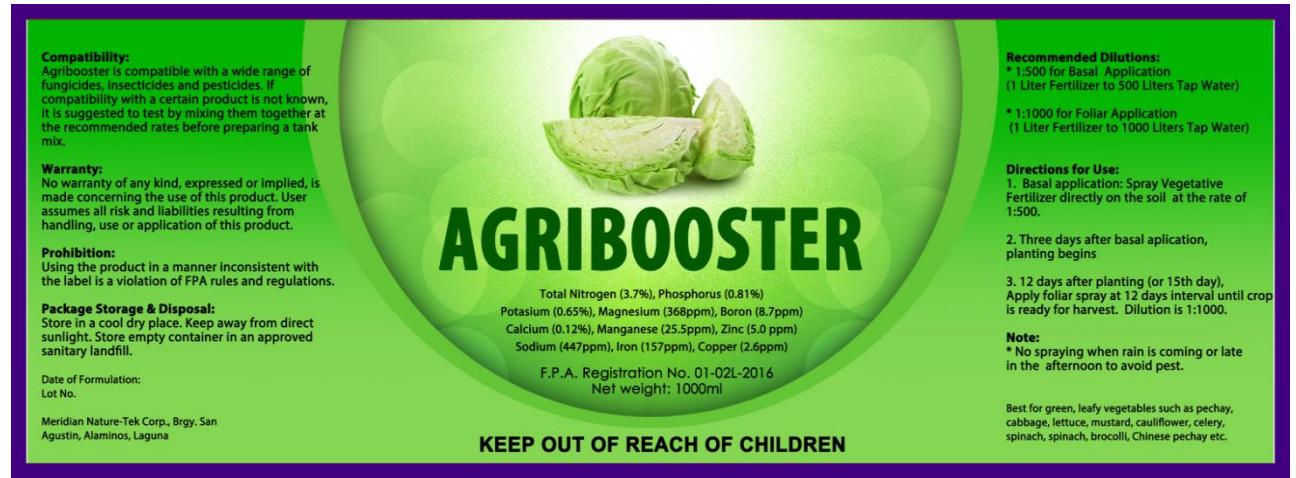

Agribooster fertilizer is a, natural, premium fertilizer, decomposer, and soil conditioner. It enhances soil rejuvenation, conditioning, and fertilization.

- Our product contains vermi-compost extract, seaweeds enzyme, banana enzyme, zeolite /mineral extract, bio-waste compost additive, beneficial microorganisms and other powerful ingredients.

1 Liter Agribooster = 62.5 Knapsacks
1 Knapsacks = 16 Liters

Guaranteed Analysis

- Nitrogen – 3.7%, Phosphorus – 0.81%
- Potassium – 0.61% Calcium – 0.12%
- Zinc – 5.0ppm Magnesium - 368ppm
- Iron – 157ppm Copper – 2.6ppm
- Manganese – 25.5ppm Sodium – 447ppm
- Boron – 8.7ppm

Benefits of Agribooster

- Increase harvest by 20-30%
- Avoid harvest losses due to pests, insects etc.
- Bigger and heavier grains & fruits
- Save at least 30% on chemical fertilizers
- Harvest crops faster due to plants growing faster
- Uniform plant growth, Bigger & greener leaves

Agribooster is effective for

- Rice & Corn
- Fruits & Vegetables
- Fruit Trees & Other Crops

For Pechay, Celery, Sugarcane, Garlic, Native Onion, Lettuce, Spinach, Ornamental, Ubi, Asparagus, Mustard, Okra, Broccoli, Tobacco, Camote, Chinese Pechay, Cauliflower, Cabbage, Bulb Onion, Carrots, Cassava, Eggplant, Ampalaya, Patola, Cucumber, Beans etc.

Our Fertilizer is...

- ✓ FPA Licensed
- ✓ Affordable (1 Liter Agribooster)
- ✓ Very Effective

FPA Registration No. 1-1LP-4203
